

Who is developing a solar power project in Namibia?

The solar power project is being developed by the independent power producer (IPP) Access Aussenkehr Solar One Namibia. Access Aussenkehr Solar has given the EPC contract of its solar plant to HopSol.

How will solar power benefit Namibia?

The generation of solar power will complement Namibia's available green energy portfolio, such as hydro-electricity, which already constitutes more than two-thirds of our installed power capacity. Electrifying key parts of our economy and of our neighbours will spur unprecedented economic activity and growth for Namibia and Southern Africa.

Where is the Khan Solar PV plant located in Namibia?

Namibia's state-owned power utility NamPower recently presided over the ground-breaking event for the construction of the Khan Solar PV plant located near Usakos in the Erongo Region. The solar power project is being developed by the independent power producer (IPP) Access Aussenkehr Solar One Namibia.

What does the Khan Solar Project mean for Namibia?

The Khan Solar project supports Namibia's national policy of sourcing 70% of its total electricity from renewable energy sources by 2030. The solar project will further contribute towards achieving the goal of self-sufficiency targets of 80% in the near future, assisting the country to reduce electricity imports.

How much money will access Aussenkehr Solar One invest in Namibia?

The ground-mounted solar PV plant will have a capacity of 20 MWp. Access Aussenkehr Solar One Namibia will invest nearly N\$300 million (~ US\$20.6 million), according to NamPower. The electricity produced at the Khan Solar plant will be sold to NamPower under a 25-year power purchase agreement.

How many solar panels will a Windhoek solar power plant install?

Under the contract, the Windhoek-based company will install 33,000 solar panels, 100 inverters, and other required equipment on the 16-hectare project site. The solar power plant is planned to have 67 single-axis trackers that allow the solar panels to follow the sun's movement, optimizing its production.

NamPower, the national power utility of Namibia, has launched a tender to build a 70 MW solar plant in Rosh Pinah, a southern mining town. NamPower is seeking EPC contractors for the project.

The project is co-owned by Globeleq Africa and Natura Energy, with their respective ownership stake of 50% each. TeraSun Energy Arandis Solar PV Park is a ground-mounted solar project. The project is expected to supply enough clean energy to power 68,000 households. Development status The project construction is expected to commence from 2025.

Commercial and industrial solar developer, Sustainable Power Solutions (SPS), is constructing a 10 MW solar project in Namibia. The solar plant - slated to be operational by the end of 2024 - will supply power to gold ...

1 ??· Windhoek, Dec 19 (IANS) Namibia has allocated 330 megawatts (MW) of solar photovoltaic (PV) capacity for procurement and implementation as part of its 2024 ministerial ...

1 ??· WINDHOEK, Dec. 19 (Xinhua) -- Namibia has allocated 330 megawatts (MW) of solar photovoltaic (PV) capacity for procurement and implementation as part of its 2024 ministerial ...

Commercial exploitation is expected to begin in the second quarter of 2026. Given Namibia's dependence on energy imports from countries such as Zambia, Zimbabwe and South Africa, this project is crucial. ... (engineering contractor) signed an agreement to build a 100 MW solar project in Botswana, another southern African country. This plant ...

Solar Century Africa Limited ("Solarcentury Africa") and SolNam Energy Pty Limited ("SolNam") are pleased to announce they have received their updated generation licence from the Electricity Control Board ("ECB") to build ...

Bidding closed on 28 February for an IPP to develop a 20MW solar PV project near the Khan substation in Usakos, Erongo region. NamPower is managing the tender and intends to finalise the award within two months, with a 25-year power purchase agreement (PPA) signed two months after the award. Commercial operations are expected within one year of ...

Pieter Rossouw, Commercial Director of Emesco, said the Schonau project is a major step towards Namibia becoming a net exporter of energy through harnessing its abundant solar resource. "The project will add to a diversified energy mix, reduced costs and decarbonisation in the Southern African Power Pool. Emesco is developing its pipeline of ...

WINDHOEK, Sept 9 (Reuters) - Namibia's state-owned power utility NamPower on Monday said it had signed a contract with two Chinese firms to start building the country's largest solar power plant.

Our portfolio company, Sustainable Power Solutions (SPS), is leading the development and funding of an innovative new 10MW solar plant in Namibia. The plant is ...

UK-headquartered renewables developer Solarcentury Africa and SolNam Energy are set to proceed with the construction of a 60 MWp solar project in southern Namibia, near the town of...

Puma Energy Namibia is excited to officially launch its new network of solar projects across its sites in Namibia. Puma Energy now has 24 solar projects operating at retail stations, depots, and terminals [1] in Namibia with a combined capacity of 781 kWp able to generate an estimated 1,337 MWh annually. It is estimated that this amount of solar energy ...
