

# New photovoltaic panels installed by State Grid

Will a UK government back solar?

Signs of a UK government that's prepared to back solar have emerged within a fortnight of the Labour Party securing victory in the General Election. The government has already signed off on more than 1 GW of new solar capacity. It's been a whirlwind two weeks for the UK solar industry.

Will new solar homes get a payment from suppliers?

New solar homes and businesses creating and exporting electricity to the grid will be guaranteed a payment from suppliers under new laws to be introduced by the government this week (Monday 10 June).

Will homeowners be able to install rooftop solar panels more easily?

Homeowners will be able to install rooftop solar panels more easily without costly planning delays. This was published under the 2022 to 2024 Sunak Conservative government. Homes and businesses will be able to install rooftop solar panels more easily, under new rules announced today.

How many GW of solar PV will be installed in 2030?

Continuous support for all PV segments will be needed for annual solar PV capacity additions to increase to about 80GW, in order to reach the more than 6000 GW of total installed capacity in 2030 envisaged in the NZE Scenario. Distributed and utility-scale PV need to be developed in parallel, depending on each country's potential and needs.

Can solar panels be installed without a planning system?

Changes to permitted development rights rules will mean more homeowners and businesses will be able to install solar panels on their roofs without going through the planning system. Currently those who have to go through the planning system are having to wait over eight weeks and face extra costs.

Does the UK government want the solar industry to grow?

The government has already signed off on more than 1 GW of new solar capacity. It's been a whirlwind two weeks for the UK solar industry. Chris Hewett, chief executive of Solar Energy UK, told pv magazine he believes the new UK government "unambiguously" wants the industry to grow, a first for the trade association.
