

It is an unsustainable option that also has large economic drawbacks. A solar water pump for irrigation is a sustainable alternative that provides more benefits than conventional methods. Solar energy is converted to electricity using a solar panel or a photovoltaic cell. This electricity is used to run water pumps which carry out irrigation.

PAHAL SOLAR has signed the contract to develop 50MW Solar Park at Zimbabwe Harare. This project is going to be flagship project in Zimbabwe having received the status of National project. This project once operational will provide electricity ...

Earlier, India's solar behemoth Adani Solar had also launched TOPCon solar modules under the DCR category. The DCR modules not only can help these solar manufacturing firms to supply their products to the PM Surya Ghar consumers but can also allow them to be a part of PM-KUSUM and other government schemes which mandate the usage of DCR modules.
