Solar panels earning a Good rating are a safe and solid choice for your solar energy system under most circumstances. These panels are in the average range for most or all technical criteria analyzed, though may offer a shorter-than-average warranty. Good solar equipment is ideal for solar shoppers seeking a bargain for their solar energy system.

Firstly, Solar is not a direct replacement for your existing utility company electric supply. For example, if, at the moment, you have several 220 Volt air conditioners that are running day and night, then solar is not for you. If you think solar will save you bundles of cash in the short term, then you will have to think again.
