

Based on the meteorological observation data of air temperature, surface temperature and albedo data retrieved from remote sensing images inside and outside the ...

Water-saving drip irrigation facilities are installed under the photovoltaic panels to plant green economic crops. The shading of the photovoltaic panels effectively reduces the ...

The results showed that the photovoltaic DC field in desert and Gobi had very significant ecological functions for desert prevention and control, and the ecological functions ...

This environmental desert control system is a new use for PV. PV panels in the desert can collect enough dew to provide water for ecological restoration and develop ...
