AMG specializes in the development of a range of power management ICs and high precision, low power sensor interfaces and communications products. It positions onsemi to become a full suite provider of high efficiency power tree solutions with an expanded portfolio of gate drivers, DC-DC converters, multi-phase controllers, eFuses and more.

South Korea maintains a fairly diverse power mix, with gas and nuclear being the predominant sources of power. Although the long-term trend suggests a shift away from coal, it is important to note that over 2.0GW of coal-fired power capacity is set to be commissioned in 2024 and 2025. This trend is largely driven by concerns over energy security and the high electricity prices in ...

North Korea is removing ROK-built power lines that used to transmit electricity from the South to a joint industrial complex on the other side of the border, the South Korean military said Tuesday. The demolition near the Military Demarcation Line (MDL) marks the latest step by Pyongyang to sever all connections between the two Koreas, [...]
