

This tax credit is currently 30% of the value of the solar system, and it is claimed on your taxes in the year after installation. Many people mistakenly call this tax credit the Puerto Rico solar tax credit, but it is actually a federal tax credit. Puerto Rico itself does not offer a solar tax credit.

Very strong. Solar panels can withstand 180 mph winds. How much energy can the sun provide? Puerto Rico gets enough sun to provide more than 4x its energy needs. And most homes in Puerto Rico, even small ones, may meet their ...

Puerto Rico: The state of the solar market. Like most territories in the Caribbean Islands, Puerto Rico struggles to provide constant electricity via conventional sources. However, it has made some tremendous strides in solar energy exploitation in the last couple of years. Currently, the Island targets to attain 40% renewable energy by 2025 ...

Very strong. Solar panels can withstand 180 mph winds. How much energy can the sun provide? Puerto Rico gets enough sun to provide more than 4x its energy needs. And most homes in Puerto Rico, even small ones, may meet their backup power needs for essential appliances during hurricanes and power outages with rooftop solar and battery storage.
