

Smappee, a global leader in smart energy management, has received the prestigious Red Dot: Best of the Best Award for its EV Line. This top recognition celebrates Smappee's pioneering efforts in combining sustainability, innovation, and forward-thinking design in ...

Here you can see what values are measured by each clamp connected to the Smappee. You can see what load the phase represents and to what input of the Smappee they are connected. You can also see if an individual reverse is ...

De Smappee CT Hub verzamelt energiegegevens door verschillende stromen te meten met maximaal 4 CT's of Rogowski-spoelen. Gebruik de Smappee Solid Core 3-phase CT als een eenvoudig en kostenefficiënt alternatief. Of voeg een Smappee Input-module toe om pulsen te tellen of inputstatus te monitoren met maximaal 4 digitale inputs.

Get more from every charge with Smappee. Our award-winning, ENERGY STAR certified EV Wall offers far more than what meets the eye. Compact, yet powerful, it seamlessly upgrades with advanced energy intelligence. Want to charge with solar or optimize your energy costs? Integrated with the Startup Kit or Infinity, our EV Wall unlocks the full ...

Solar electricity and energy efficiency are crucial components of our planet's sustainable energy future. To pave the way for policy and other organizations WWF launched the WWF Upfront program in 2016. This three-phased approach turns WWF's operations more energy efficient and powers them with renewable energy, one office at a time. At the base of ...

Système de gestion de l'énergie tout en un. Smappee Infinity offre une solution unique pour la surveillance de la tension et l'équilibrage dynamique de la charge entre l'énergie solaire, les VE et les autres appareils grâce à une interface en cloud.

Export and save energy data. Use the Smappee Dashboard as your primary energy data gathering tool. Export your energy data as an Excel or CSV file and analyse it in the program of your choice or save it for future reference on a hard drive, USB, in the cloud, etc. 7. Monitor power quality.

Smart charging becomes the norm, and Smappee leads the way. Energy management analytics: a driving force behind Smappee's energy insights. Self sufficiency at home in 10 effective steps. 3 ways to submeter appliances. Make buildings even ...

Smart energy monitoring manufacturer Smappee has debuted its new Modbus energy meter. Tailored for industrial and commercial sites, Smappee's Modbus energy meter offers accurate submetering and energy

metering functionalities. The data is transferred via Modbus RTU (RS-485) to any 3rd party gateway, data logger or scada system

Smappee EV charging stations ensure cost-efficient charging of your car at home, work or on the road. Up to 6x cheaper. But that's not all. Smappee analyzes your consumption of electricity, solar energy, water and gas in real time making it easy for you ...

The Smappee smart cloud is a Smappee innovation that puts a further level of security between our electric vehicle charging stations and third-party payment backend technology. It provides an encrypted connection where your data and readings are converted into the user-friendly statistics displayed on the Smappee app.

Advanced energy intelligence sets us apart. Smappee's advanced energy management system, the Infinity, integrates with our charging infrastructure and drives smart functions. This not only helps your charging stations charge smarter but also creates smart insights into the energy consumption of your building. So, you will have all you need to make wise energy choices and ...

Here you can see what values are measured by each clamp connected to the Smappee. You can see what load the phase represents and to what input of the Smappee they are connected. You can also see if an individual reverse is active on the phase and how good the quality of the measured power is (cos fi).

Solar electricity and energy efficiency are crucial components of our planet's sustainable energy future. To pave the way for policy and other organizations WWF launched the WWF Upfront program in 2016. This three ...

This article will give a brief overview of how to view and analyse your energy consumption in the Smappee dashboard. The article will briefly go over the live values, our graphs and table and how to configure them. Live values.

Advanced energy intelligence sets us apart. Smappee's advanced energy management system, the Infinity, integrates with our charging infrastructure and drives smart functions. This not only helps your charging stations charge ...
