

What is solar stack?

Solar Stack is an innovative and damage-free solar panel mounting system that revolutionizes the way solar panels are installed on roofs. Unlike traditional methods that involve drilling holes and potentially causing damage to the roof, Solar Stack utilizes a spray polyurethane foam adhesive to securely bond the mounts to the roof surface.

What is Magerack solar mounting system?

Magerack Solar Mounting System and MageMount Rail-less Mounting System are turn-key solar mounting solutions that are reliable, easy to install and cost-effective. In addition, Magerack also provides a variety of innovative roof attachments for solar installation on residential and commercial and industrial metal roofs.

What are Fastensol solar panel fixings & solar panel mounting rails?

Our range of Fastensol offers premium Solar Panel Fixings & Solar Panel Mounting Rails, a cutting-edge solution for efficient solar installations. These high-quality components ensure secure panel attachment and easy alignment, maximising energy output.

How long does solar stack take to install?

A traditional solar panel racking system will create 100-200 holes in a residential roof. A penetration system takes anywhere between 2-5 days to install. Solar Stack jobs can be completed in 24 hrs. Customers have peace of mind with no holes and no leaks. Unlike penetration mounting systems Solar Stack does not void your valuable roof warranty.

How good is a rooftop solar PV array?

A rooftop solar PV array is only as good as the mounts and rails it sits upon. Below we have the latest updates from 16 manufacturers across residential and commercial & industrial solar mounting systems, and approaches vary greatly.
