In a unit-owner project, one or more unit owners pay to install a solar panel system on the condominium's roof for their personal use. If you propose a unit-owner project, you will need to get approval from the condo association and obtain an easement to authorize system installation and maintenance. Sometimes, the association may also charge ...

Community solar refers to any solar project that serves multiple customers, families, or businesses. Typically, community solar subscribers buy or lease a portion of the project and receive credit on their electric bills for the electricity produced from their project share through virtual net metering. signing up for a community solar project, you'll likely save ...

The Territory of Heard Island and McDonald Islands [2] [3] (HIMI; [4] ISO 3166 region code: HMD, HM, 334; [5]) is an Australian external territory comprising a volcanic group of mostly barren Antarctic islands, about two-thirds of the way from Madagascar to Antarctica. The group's overall land area is 372 km² (144 sq mi) and it has 101.9 km (63 mi) of coastline.

The Community Solar Project looks to provide renewable energy to homes that are either unable to unwilling to install costly solar panels. One of their goals is to recruit people who live in apartments or condominiums so that they can enjoy the benefits of solar power while renting a multi-household unit.
