Below we've summarised the pros and cons of solar PV panels: Pros. Sustainability - Solar panels take energy from sunlight, helping to power your home for free. Lifespan - Solar PV panels can last up to 30 years, making them a great long term energy source. Flexibility - These panels can collect energy even on cloudy days, perfect for the UK.

The cells convert the sunlight into electricity, which can be used to run household appliances and lighting. These cells don't need direct sunlight to work - they can still generate some electricity on a cloudy day. Many properties in the Isle of Man are suitable for solar PV installations and you would be surprised how much energy you can ...
