Leading provider of world class solar and energy storage solutions in Sierra Leone & Liberia. We deliver tailored solutions for hospitals, businesses & industry, reducing costs and powering a greener future.

Since 2019 we've been providing world class solar power and energy storage solutions, that are designed, built and maintained by a team of experts dedicated to making our clients' solar journey a seamless and rewarding one. ...

Sierra Energy Solutions stands at the forefront of revolutionizing the energy sector with its integrated smart solutions. The company specializes in state-of-the-art technologies, seamlessly incorporating solar PV, Battery Energy Storage Systems (BESS), Energy Management Systems (EMS), and both on-grid and off-grid connectivity.

As part of a project overseen by Sustainable Electricity for All (SEforALL), six major hospitals in Sierra Leone now have solar power systems with batteries installed, providing them with clean, dependable, and affordable electricity.

SiNergy SL Ltd. is an energy solutions provider focused on the design procurement installation and support of PV solar energy and battery backup solutions in Sierra Leone. As a locally developed entity we have over the years understood our environment and the specific requirements needed in deploying successful PV solutions.

We offer a comprehensive range of solutions tailored to meet the diverse energy needs of communities across Sierra Leone. From design and installation to operation and maintenance, we are committed to delivering reliable, affordable, and sustainable electricity access through our off-grid solar mini-grid systems.

Sierra Leone's first cohort of solar engineers came from humble beginnings, but in 2010 they travelled 6,000 miles to train at the Barefoot College in Tilonia, Rajasthan, in western India. After six months of training, they returned to their country to establish the Barefoot Women Solar Engineers Association of Sierra Leone (BWSEASL, commonly ...

The Abu Dhabi Fund for Development announced a new loan program that would provide Sierra Leone with Dh 33 million, or about \$8.9 million, to construct a new solar power plant near Freetown, the capital and a major urban area. Called Solar Park Freetown, the project would provide an extra six megawatts to Sierra

Leone's already burgeoning solar ...

ECA - Gap analysis of legal & regulatory framework for solar IPPs iii Executive Summary This report is prepared at the request of the Government of Sierra Leone as part of the World-Bank-funded project on Unlocking the Potential for Grid-Connected Solar Power through Private Sector Investment Sierra Leone. This report provides the gap analysis ...

4 ???· It also reinforces President Bio's ambition to pursue both bulk power and decentralized renewable energy solutions to power Sierra Leone's economic development." ... There are over 100 solar mini-grids in operation in Sierra Leone under Private sector portfolios. Based on experience and with support from SEforALL, SLWERC has developed an ...

In recognition of the need to shift from natural gas to renewable energy, Dronninglund District Heating set a goal back in 2005 o have solar heat cover 50 percent of its annual energy production. Today, Dronninglund has a solar district heating solution consisting of 2,982 solar panels covering 37,5

The 50MW Planet Solar PV project is split in four different locations in Sierra Leone, consisting of a 12MW power plant under construction in BO/Kenema, a 4.05 MW (DC) power plant to be constructed in Port Loko, a 25MW power plant under construction in Makoth and a 10MW power plant under construction in Kono.

Sierra Leone has one of the lowest rates of electrification globally, leaving a vast majority of the population without reliable power. Amidst this challenging landscape with limited uninterrupted grid supply and access, solar has emerged as an increasingly attractive solution for both homes and organisations looking for an alternative that is ...

Serengeti Energy has started operations at what it claims is Sierra Leone's first solar independent power project. The 5 MW solar installation is located in Yamandu, Southern Sierra Leone. A ...

Since 2019 we've been providing world class solar power and energy storage solutions, that are designed, built and maintained by a team of experts dedicated to making our clients' solar journey a seamless and rewarding one. ... COUNTRY DIRECTOR - SIERRA LEONE. Ernest Heston. TECHNICAL LEAD - SIERRA LEONE. Michael Sisay. TECHNICAL LEAD ...
