Can pigeon house power supply my home EV charging solution?

At Pigeon House Power we can supply your home EV charging solution. Electric vehicle supply equipment, or "EVSE," is actually the proper term for what many call 'EV chargers'. We are accredited installers and you can rely on our strong after sales support. Most EV's supplied in Australia will come with a portable charge plug lead supplied.

Do pigeons live under solar panels?

In addition, pigeons can be incredibly persistent, especially if they have already built nests under the solar panels. Removing nests and droppings can be dangerous and a tricky challenge. In addition, if the job is not done correctly, the critters will stay, discover an opening, or return, wasting everyone's time and money.
