Nigeria NGN ? ... A cup of coffee has around 100mg of caffeine while an average 12oz energy drink has ~90mg of caffeine! Solstice contains 40mg of caffeine and lasts 400 breaths. But caffeine is a lot more effective if inhaled. So it only takes 5-10 breaths of Solstice to feel the same as a cup of coffee or an entire can of Red Bull.

Solstice Energy design, install and commission solar photovoltaic and systems for domestic, community and commercial buildings. Solar photovoltaic (PV) is the creation of electricity from light, while solar thermal is all about heating water. A PV system will silently send free electricity to your consumer unit to be used in the same building ...
