A one-day seminar is taking place in Sarajevo and another one in Belgrade. The events will showcase the expertise and the latest energy solutions from Germany and Bosnia-Herzegovina and Serbia. These conferences provide a forum for networking, specialist talks, discussing current developments and the policy

environment for smart energy solutions.

Bosnia and Herzegovina are developing a National Energy Climate Plan in line with European regulations to address energy efficiency, renewables, greenhouse gas emission reductions, generation interconnections and research and innovation. The plan will open the door for Bosnia and Herzegovina to accelerate decarbonization.

Institutions & Energy Policy. Bosnia and Herzegovina (BiH) is a Balkan country that became independent from Yugoslavia in 1992. Since the signing of the Dayton Peace Agreement in 1995, the country has been split in two entities, the Federation of Bosnia and Herzegovina (FBiH) and the Republic of Srpska (RS); in addition, the district of Brcko has a special status.

With 189 member countries, staff from more than 170 countries, and offices in over 130 locations, the World Bank Group is a unique global partnership: five institutions working for sustainable solutions that reduce poverty and build shared prosperity in developing countries.

Bosnia And Herzegovina Renewable in % Electricity Production. Under its draft NECP (2023), Bosnia and Herzegovina aims to reach a share of 43.6% of renewables in final energy consumption by 2030 (up from 36.6% in 2021), including 70% for electricity, 61% for heating and cooling, and 8.4% for transport (46%, 53%, and 0.2%, respectively, in 2021).
