With solar modules MAX 100W solar input (VOC12-28V), is fully charged in 3 hours. Also can use a car charger (100W) and the USB-C (45W) supports bi-directional input. (Safety and durability): The ultra-safe

LiFePO4 battery with integrated BMS ensures self-protection against short circuits, overload and overheating. 220-240V pure sine wave ...

I don't think any or very few companies have a wifi enabled solar generator. I know pecron has their E1500LFP (can't remember actual model) but it has wifi and built AC charger. It ships later in September though. I don't mind the external charging block since I charge by solar or if I am at home, charging block is fine. Efficiency appears good ...
