Solar panel component failures can lead to very high costs: the price of repairs, the loss of revenue and the damage to your reputation. Hence operational excellence powered by effectively conditioned real-time solar PV asset monitoring with analytics is crucial in keeping your solar panel running and getting best out of it.

"The House is aware that a political agreement has been reached with Mauritius about the long-term future of the British Indian Ocean Territory. Once any treaty with Mauritius comes into force, following its proper parliamentary scrutiny, Mauritius will be responsible for any migrants who arrive there.

Occasionally referred to by the delightful portmanteau "floatovoltaics", these systems function exactly as the name suggests - an array of solar PV modules are mounted onto floating platforms that are permanently moored in a body of water, usually a lake or ocean bay.

British Indian Ocean Territory is centrally placed in the Indian Ocean, south of the Island of Maldives, about halfway between Indonesia and Madagascar. The central island, Diego Garcia, is a military facility off-limits to anyone not on an official visit. Still, some of the uninhabited outer islands can be visited by yachters with permission.
