

The scam of installing photovoltaic panels in the countryside

Are free solar panels a scam?

Emails offering cheap solar panels or appearing to be backed by a Government scheme could also be scammers, taking you to an seemingly-official website offering free or cheap installation. These incredible deals rarely exist, so approach these with caution to avoid wasting your time. 3. Free solar panel online ads

Are 'free solar panel health checks' a scam?

We're regularly contacted by customers, who have received an unsolicited call or letter from another company, offering them a 'free solar panel health check' or warning about their solar PV system being at risk of failing. This is a common scam.

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

Are solar panels a scam or a cold call?

Here are the cold calls and potential scams to avoid. More than a third of solar PV panel owners in our recent survey told us they have been cold called about their panels in the past five years. Most cold callers were trying to sell them something unnecessary, but a few owners were told something completely untrue.

How do I know if a solar company is a scam?

Be wary of solicitors. Always verify the identity and credentials of anyone claiming to represent a solar company. Unscrupulous solar companies may employ aggressive or dishonest sales tactics to close deals quickly, especially if the proposed solar installation isn't in your best interest.

How do I protect myself from solar scams?

Protecting yourself from solar scams means taking a proactive approach and following a few key strategies. One of the most effective ways to protect yourself from solar scams is to know the average cost of solar panels in your area. By researching prices, you can identify quotes that are suspiciously high or low.
