

There is a scam in installing photovoltaic panels on the roof of a rental house

How do you identify a solar panel company to avoid scams?

These tactics may include persistent calls, scare tactics, door-to-door visits, or making unfounded claims about solar benefits. Companies employing such methods prioritize sales over delivering quality service. These are the red flags to identify solar panel companies to avoid scams. Also See: Do You Still Have an Electric Bill With Solar Panels?

Are free solar panels a scam?

Emails offering cheap solar panels or appearing to be backed by a Government scheme could also be scammers, taking you to an seemingly-official website offering free or cheap installation. These incredible deals rarely exist, so approach these with caution to avoid wasting your time. 3. Free solar panel online ads

Are solar panel scams common in Florida and California?

Solar panel scams in Florida and California are quite common, as they are in any region where solar energy is popular and incentives are provided. Scammers take advantage of people's limited knowledge about solar systems, providing misleading information that makes it hard for victims to recognize the scam.

Is a solar lease a scam?

Solar Lease or PPA Scams While leasing or using a Power Purchase Agreement (PPA) for solar panels isn't inherently a scam, these contracts can be challenging to break. Be cautious, as they may lock you into an unwanted monthly payment for a solar array you don't own.

What are the most common solar scams?

Here are some common scams to be aware of: 1. Fake Solar Companies Some scammers create fake solar companies, selling solar panel systems without any intention of installing them. They may ask for a big upfront payment and then vanish without doing any work. 2. Identity Theft Scams

Should you choose a solar company to avoid scams?

A lengthy history of lawsuits is another red flag when considering a solar company to avoid scams. These legal issues could involve poor workmanship, unfulfilled promises, or fraudulent practices. Prior to choosing a solar provider, thorough research into any existing lawsuits or complaints is essential.
