

# Tianchen New Energy Energy Storage Project

Who is Shanghai Tianchen?

Chinese investment holding company Shanghai Tianchen Co.,Ltd. announced it has signed an agreement with the government of Wuhu City, in China's southeastern Anhui Province, for the construction of a solar cell and storage system manufacturing facility in the Fanchang Economic Development Zone.

What are the Development Goals for new energy storage in China?

The plan specified development goals for new energy storage in China, by 2025, new energy storage technologies will step into a large-scale development period and meet the conditions for large-scale commercial applications.

How much money does Shanghai Tianchen need?

The project requires an investment of CNY 11.6 billion (\$1.67 billion), the company said without providing further details. In February 2022, Shanghai Tianchen signed an agreement with Chinese module maker Huasun.

How much will China's new solar plant cost?

The company said the new factory is planned to have an annual solar cell capacity of 20 GW and a battery capacity of 20 GW. Initially the factory will have a cell capacity of 5 GW and storage system capacity of 6 GW. The project requires an investment of CNY 11.6 billion (\$1.67 billion), the company said without providing further details.

How will energy storage technology evolve in 2030?

Mechanical energy storage technologies such as megawatt-scale flywheel energy storage will gradually become mature, breakthroughs will be made in long-duration energy storage technologies such as hydrogen storage and thermal (cold) storage. By 2030, new energy storage technologies will develop in a market-oriented way.

Will huasun and Tianchen join a joint venture?

The two companies said at the time they aimed to set up a joint venture for the development of heterojunction solar modules, with Tianchen securing an 80% stake in the new company and Huasun holding the remaining share. In February this year, Huasun started manufacturing panels in Anhui at its HJT solar cell factory in Xuancheng.

Solar and energy storage system integrator CS Energy said last week that it has been selected by an unnamed independent power producer (IPP) to work on a hybrid DC ...

Government will unlock investment opportunities in vital renewable energy storage technologies to strengthen

# Tianchen New Energy Energy Storage Project

energy independence, create jobs and help make Britain a ...

In order to actively respond to the national industrial policy requirements for photovoltaic, energy storage, and multi energy complementary development, on June 5, 2023, Shanghai Tianchen Co., Ltd. announced that it ...
