

What makes Trina Solar 405w+ vertex s unique?

Trina Solar's 405W+Vertex S meets the module requirements of typical distributed photovoltaic systems and excels in key areas such as power (efficiency),size,weight,appearance,ease of installation,load,reliability and safety.

What's new at Trina Solar?

Trina Solar's Head of Module Business Europe,Gonzalo de la Viña, stated: "The Vertex S series is another milestone in Trina Solar's long history of PV innovation. This module is the solar industry's most powerful product in the former 60-cell range.

Who is Trina Solar?

Founded in 1997,Trina Solar is the world's leading comprehensive solutions provider for solar energy. We believe close cooperation with our partners is critical to success. Trina Solar now distributes its PV products to over 60 countries all over the world.

How much power does Trina Solar provide?

The cutting-edge Vertex technology platform combines 210mm wafers,multi-busbar design,non-destructive cutting and high density packing. By introducing this platform to the new Vertex S family,Trina Solar is able to boost Vertex S's output power to more than 405Wp,a power increase of up to 60Wp or 17% compared with previous product generations.

Is Trina Solar launching vertex s?

On November 3,2020,Trina Solar,a leading global PV and smart energy solution provider,announced the launch of Vertex S,the latest in their high-efficiency PV module series for residential and commercial rooftop applications.

What makes Trina Solar unique?

With this latest addition to the Vertex product range, Trina Solar takes the next logical step in its innovation leadership. The cutting-edge Vertex technology platform combines 210mm wafers, multi-busbar design, non-destructive cutting and high density packing.

Universal solution for residential and commercial applications, the Vertex S boasts ultra-high performance despite its small size profile . On November 3, 2020, Trina ...

Trina 415W Vertex S Full Black Solar Panel. Part Number: 2501523239. MPN: DE09R.05. Product Type: Trina. ... · 405-425W Power Output Range · 21.8 percent maximum efficiency · ...
