

Radioactive Material Storage Containers. Containment units designed to store radioactive material, samples, and/or waste that emit beta particles/isotopes; products are available in several sizes. ... these unique Cleaver Scientific cabinets provide a convenient area to carry out work with beta and gamma emitting isotopes with complete all ...

The frame, tabletop and side boards of the shielded radioactive sample storage cabinet are made out of stainless steel to give a clean look and provide cleanability. This shielded radioisotope storage cabinet can be shielded with 6, ...

&lt;p&gt; Lead lined laboratory cabinet to store radioactive materials. This shielded hotlab cabinet belongs to a modular range of shielded hotlab furniture and is available with 6, 12.5 and 25 mm lead shielding. Due to it's modular design, it can be easily placed next to the other cabinets in the shielded cabinet range without large open spaces. This shielded cabinet is also available in ...

This shielded radioactive source storage cabinet is perfect for storing gamma source projectors, such as the Sentinel Delta 880. The industrial radiography source projector storage cabinet is standard shielded with 25 mm of lead shielding. The dimensions of the compartments can be customized to make the shielded source storage cabinet fit ...

SAFETY CABINET RADIOACTIVE STOARGE . Zoom images. Product Information. Safety Cabinet \$ 401.80. quantity. SAFETY CABINET RADIOACTIVE STOARGE quantity ... Reviews (0) Description. Radioactives Storage Cupboard Product Description This is a stoutly built enamelled sheet-steel cupboard having a louvred, lockable door bearing a standard ...

The frame, tabletop and side boards of the shielded radioactive sample storage cabinet are made out of stainless steel to give a clean look and provide cleanability. This shielded radioisotope storage cabinet can be shielded with 6, 12.5 or 25 mm of lead shielding on all sides and in the front panels of the drawers.

The Radioisotope Storage Cabinet is designed for safely storing radioactive materials. It features 12 key-locked drawers. Each drawer is easily removed for cleaning or decontamination. A card slot identifies contents. ...
