

Dependable power in any weather condition. SEC knows that the open water is no place for failure. Captains need absolute reliability. Good batteries will crank the engine every time, but great deep-cycle marine batteries are those manufactured for power and safety. That means high energy density, post seals which won't leak and explosion-proof vents.

resistant to high impact. The battery can be stored for long periods of time without charge, and shipped by sea, road or air without special precaution. Valved regulated AGM High-quality components ISO:9001 standards SEC Industrial Battery Company are large-scale producers of industrial batteries and energy generation systems. The design

SEC makes all-condition batteries for exploration, extraction, and refinement. They constantly innovate, strive to minimize maintenance requirements, improve ruggedness and widen the temperature operation range of industrial batteries.

The SEC Polycell Solar series is ideal for residential, commercial or utility solar projects. A performance efficiency of up to 16.6% combined with low whole system costs, give you an excellent price to performance ratio, and a fast return on investment.

3. SEC BATTERY IN THE NEWS. SEC not only aims to become one of the most popular educational resources for science and renewable energy news, but also, to build and grow as a company. We don't just want to publish and distribute educational research and news, the company also wants to make news.

SEC understands the special needs of large-capacity energy storage. By introducing vented catalysts to our 2 Volt Gel and AGM batteries, we were the first battery manufacturers to increase life and decrease float charge requirements. The innovation continues with new high-capacity designs, manufactured to meet European ISO standards.

At SEC Industrial battery company we recommend that you choose energy storage products which are specific to the application you're powering. Yes, golf cart batteries are durable but... Golf cart batteries are being touted in the media as extremely versatile and even suitable for powering off-grid homes and cabins.

SEC batteries are designed to excel under the demanding and dynamic conditions faced by telecom service providers. Our rack-mounted batteries use an innovative plate design for a combination of extreme reliability in harsh conditions, low maintenance, and long life. SEC has designed several ranges specifically for telecom operators.

SEC battery supplies agents and purchasers in the medical sector with a range of energy storage. Buy a

long-lasting, quality 6-12V battery from SEC today. ... SEC industrial batteries provide reliable power when failure is not an option . ... We are the one company that both understands and can meet the diverse needs of the medical industry ...

Plug into the SEC Partner Grid . If you're in the rail industry, partnership with SEC could be your gateway to success. The SEC Partner Grid will connect you with leads to supercharge your business. Then we'll throw in volume discounts, rewards, ready-made systems and a support network to help ensure growth in market share and profitability

The Microlyte MP is a range of valve regulated AGM batteries and is available in a wide range of industry standard sizes. This mainstream range still features SEC reliability, but is suitable for all general standby applications at the more cost sensitive end of the market.

Reliable emergency lighting is critical to meeting health and safety standards. When the power goes out, the lights need to stay on - and if you've chosen the right battery, they will. SEC are globally renowned battery manufacturers. We make long-lasting Lithium-Ion, VRLA and AGM batteries that are vibration and shock resistant.

The SEC Microlyte MP series of VRLA monoblocs are a classic top terminal range of AGM batteries. They were designed as a cost effective but reliable solution for many uses, engineered with lead calcium plates to give them a triple benefit.

SEC makes all-condition batteries for exploration, extraction, and refinement. Constantly innovating, we strive to minimise maintenance requirements, improve ruggedness and widen the temperature operation range of our deep- cycle, AGM, VRLA, flooded, Ni-Cd and Gel batteries.

Specialties SEC Industrial Battery Company is one of the few battery companies in the World who offer a full comprehensive range of, AGM, or, Gel, stationary, battery, and for industrial applications

The SEC Monocell Solar series is manufactured with innovative module technology to offer an increased efficiency of 16.6%. Effective weak light performance and maximum durability in all conditions make the monocell an outstanding performer with a high energy yield.
