

U S Outlying Islands startup renewable energy company

EcoEngineers was established in 2009 to steer the low-carbon fuels industry through the complexities of energy regulations. Today, Eco has grown to fit the needs of industry-leading companies, governmental agencies, and tech start-ups navigating the energy transition.

China is reshaping the global energy landscape, setting its sights on an ambitious transformation driven by renewable energy. In its latest move, on October 30, 2024, the Chinese government unveiled the Guiding Opinions on Vigorously Implementing the Renewable Energy Substitution Initiative (hereinafter the "new renewable energy plan") to accelerate ...

U.S. Sustainable Data Center Market Industry Outlook & Forecast 2024-2029 - Hyperscale Operators are Increasingly Securing Renewable Energy - ResearchAndMarkets Business Wire Dec 12, 2024

The Innovative Startups and SMEs Fund (ISSF) - the largest investment fund of its kind in Jordan - has completed a direct investment of USD 150,000 in NEXT Renewable Energy Company; a Jordan-based provider of specialised solar thermal (ST) and photovoltaic (PV) solutions. NEXT extends solar-dependent designs, fuel-saving solutions ...

AI is sucking up energy and tech companies are looking at ways to power it. There's been a lot of talk about nuclear, but those projects are years away and AI's thirst for energy is happening now.

August 2024 will mark two years since the passage of the Inflation Reduction Act (IRA). Given the upcoming anniversary, we decided to check in with US renewable energy company executives about their companies' plans and their views on sector growth, emerging technologies, financing tools, changing regulations, and other key issues.

Redoxblox, a US firm developing thermochemical energy storage systems (TCES), has closed its Series A financing round at around USD 40.7 million (EUR 37.6m), adding to recent grants awarded by the California ...

Researchers from the University of Utah, U.S. National Renewable Energy Laboratory and MIT demonstrated the use of the biobased resin in the construction of a 9 m prototype wind turbine blade. The material described in the journal Matter may soon be ready for mainstream manufacturing.

The project is set to be one of the largest solar farms globally. Credit: Michael Förtsch via Unsplash. SP New Energy Corporation (SPNEC) subsidiary Terra Solar Philippines has selected Jacobs to support a renewable energy project, estimated at \$3.3bn. Meralco PowerGen (MGEN) Renewable Energy, the ...
