

Warranty period for container energy storage system

Why do you need warranty insurance for your energy storage system?

Our warranty insurance solutions help to secure your sustainable business in the long run. Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more.

Does GivEnergy come with a 12 year warranty?

We've recently announced some game-changing news: all GivEnergy residential battery storage systems fitted as of 11/09/2023 will come with an industry-leading 12 year warranty. You'll no doubt have questions about the finer details of this new policy change. So, we've put together a handy FAQ to answer those questions for you.

Does the warranty cover GivEnergy battery storage?

In a nutshell, the warranty covers any GivEnergy residential battery storage system installed from 11/09/2023 - no matter which specific battery and inverter model are fitted. What products does the warranty not cover? Different warranties apply for: Please see product datasheets or refer to any existing warranty documents for details.

When does a warranty apply?

Warranties apply once the system has been fully commissioned. (I.e., not purchased, not installed, but commissioned.) So, commissioning photos should be sent through, accounts created, etc. Please note: every system must be commissioned within 30 days of installation.

How long do energy storage systems last?

Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more. As a manufacturer and system integrator you have to provide your customers with warranties.
