

Why do people not buy solar panels?

For every scam and pushy sales person there is an honest,experienced local installer ready to help you meet your energy goals. Another reason people don't buy solar panels is because they're stuck on a misconception about the solar industry,like that solar is expensive or short-lived. u/Jm11890 said: I've worked in the industry for 7 years now.

Are solar panels right for You?

Solar panels are best for people who live in good solar states with solar-friendly policies,like net metering and solar incentive programs. Homes with south-facing roofs and lots of unshaded space are also ideal for solar. Homeowners with high electricity bills are among those who can benefit the most from going solar.

Why do people worry about solar panels?

Some are put off by uncertainty about costs, others believe the installation will be disruptive and many worry that solar panels will be tricky to maintain. These were among the most common questions and concerns people had about getting solar panels, according to a government report in July 2021.

Are solar panels worth it?

Solar panels are also a great source of clean energy. According to Columbia University, solar panels lower carbon emissions per acre than trees! Solar panels also reduce reliance on fossil fuels and help you live more sustainably. With solar, you can go green and keep the green in your wallet -- sounds worth it to us! Are solar batteries worth it?

Are solar panels a good investment?
