

Yangtze Power invests in solar power generation

How much power does the Yangtze River have?

With a total installed capacity of 71.7 million kilowatts, the 1,800-kilometer corridor comprises six mega hydropower stations on the Yangtze, the largest river in China. Made up of 110 generating units, it transmits power from the resource-rich west to energy-consuming regions in the east.

Why did China Yangtze Power's third-quarter net profit rise 38%?

By Jiahui Huang China Yangtze Power's third-quarter net profit rose 38%, supported by stronger power generation amid higher river water volume. Net profit rose to 12.64 billion yuan (\$1.73 billion) compared with CNY9.16 billion in the same period a year earlier after adjustment, the company said.

Could solar power be China's new energy generation system?

Instead of nuclear, solar is now intended to be the foundation of China's new electricity generation system. Authorities have steadily downgraded plans for nuclear to dominate China's energy generation. At present, the goal is 18 per cent of generation by 2060.

Who is Yangtze group?

Yangtze Group, founded in 1994, have supplied more than 1.5GW photovoltaic solar panels and million units of batteries, solar charge controllers and inverters. Yangtze Group is focusing on product development, production, system integration, sales and service.

Why is PowerChina launching a second-largest solar power plant in South Africa?

To complement these efforts, renewable power plants are coming up in different parts of the country and PowerChina, the state-owned Chinese energy behemoth, is taking advantage of this to expand its footprint in the sector after signing a contract for the second-largest solar energy plant in South Africa.

Which Chinese companies have solar power projects in South Africa?

Already other Chinese companies like Sinohydro Corporation, China Yangtze Power, Xinjiang Goldwind Science Technology and JinkoSolar Holdings have some solar power projects in their portfolio in South Africa which gives them an edge in the country's renewables sector. SUGGESTED READING:
