

Are electric car batteries a key milestone for Poverty Alleviation in Zambia?

Speaking after the signing ceremony, President Hakainde Hichilema said the signing of cooperation agreements between Zambia and the DRC to start manufacturing electric car batteries is key milestone towards poverty alleviation in Zambia and DRC.

Why is Zambia partnering with DRC to produce car batteries?

Zambia has advanced its manufacturing sector with potential to produce car batteries. For this reason, the southern Africa country has sought for a partnership with its neighbour DRC to boost their mining and manufacturing sectors to be able to take advantage of the global demand for cobalt and lithium-ion batteries.

Can Zambia create a competitive electric vehicle battery value chain?

Mr. John Mulongoti, Permanent Secretary-Investments and Industrialisation, MCTI, in his opening remarks shared Zambia's resolve to create a competitive Electric Vehicle Battery value chain leveraging on the presence of the critical minerals, tailored towards sustainable development and inclusive growth.

What is Zambia-DRC Battery Council?

The two governments recently signed a memorandum of understanding; "Zambia-DRC Battery Council" which they hope will make them massive producers and refiners of cobalt for electric vehicle batteries.

What is Zambia & DRC 'joint initiative'?

Lusaka, 05 October 2023 - "Zambia and the Democratic Republic of Congo (DRC), together are home to at least 70 percent of critical minerals required to produce Battery Electric Vehicle (BEV) and precursors. The Joint Initiative is expected to unlock economic potential and strengthen the value chain in the both countries.

Will private sector play a role in achieving Zambia's manufacturing agreement?

"We fully welcome and support the Operationalisation of this agreement" Mr Masuwa said. Zambia Association of Manufacturers president Ashu Sagar said the private sector will play its role in seeing to it that the programme succeeds.

The license areas are located approximately 100 km southwest of MCL's coal mine in Maamba. Lithium, a critical battery metal, is a key focus in ZCCM-IH's 2020-2026 strategic plan. The issuance of these licenses to MCL aligns with ZCCM-IH's strategy to diversify its mineral commodity base.
